Bidding will be conducted through the International Competitive Bidding procedures as specified in the World Bank's Guidelines: Procurement of goods, works, and non-consulting services under IBRD loans and IDA credits & grants", [Guidelines: Procurement of Goods, Works and Non-Consulting Services under IBRD Loans and IDA Credits & Grants by World Bank Borrowers], issued in January 2011, amended in July 2014 r. ("The World Bank Guidelines") and it is open for all bidders who qualify, as defined in the World Bank Procurement Guidelines.

Under the Contract, it is planned to perform a digital communications system as the Dispatching Communication Subsystem and the Communication Subsystem along the Odra River.

The project will cover weirs, reservoirs and other hydrotechnical facilities.

The Supplier shall provide for the Dispatching Communication Subsystem: digital mode of operation with the possibility to enable encryption; possibility of individual calls (between single radiotelephones in a group), group calls, emergency calls, report to the console using the infrastructure of the telecommunications operator(s); emergency communications, at least within the station, including when the public network is under pressure; natural disasters, in particular flooding; coverage in areas where other telecommunications networks are not in place; archiving of events, including recording of correspondence; local individual and group connections functioning independently of the failure of telecommunication operators' networks; possibility of sending short individual and group messages with description of critical states of monitored systems, data transmission; possibility of programming analogue channels, including the whole pool of sea/inland channels for direct communication with floating vessels; high mechanical and water resistance of radio terminals; wide availability of radio terminals from various independent manufacturers; built-in GPS receivers - user location; organisation of one teletransmission network using digital networks of several operators providing a very high degree of redundancy; teletransmission network organised by both cable (optical, copper) and wireless links (GSM/LTE, CDMA, radio link); reliable and intelligent WAN, capable of reacting not only to the lack of transmission but also to the deterioration of the network parameters of a foreign operator.

In the scope of the Odra Communication Subsystem The Supplier shall provide: possibility of organising communication along rivers on standard sea/inland radio channels; implementation of the "voting" function, i.e. simultaneous operation of several (several dozen) bank stations on one radio channel along rivers with automatic selection of the bank station based on the level of the radio signal; decoding of ATIS inland signalling and automatic identification of vessels; possibility of simple and effective group connections between radio subnets (RZGW <-> Odra channel 10 group relation); possibility of expansion and integration with the AIS automatic ship location system.

³⁾ In case of the part of the procurement, the value for particular lots of the procurement shall be provided in the appendix (separately for each part).

⁴⁾ Apply as many times as needed.

The expectations regarding functionality and widely understood security in respect of the Communication Subsystems require the use of technologies and solutions that enable standardisation, maintaining the continuity of work, ensuring scalability and ease of expandability. A key factor is also the selection of solutions that guarantee optimised maintenance costs of the Communication Subsystems.

The Supplier makes the necessary deliveries for the appropriate locations, together with the necessary adaptations of rooms and installations, including sub-antenna constructions, towers, masts resulting from the radio planning carried out and accepted. The Supplier will install and commission hardware and software. In addition, the Supplier will ensure comprehensive training of the Employer's personnel in the operation of the offered subsystems.
