The road bridge located at km 53+067 of the national road No. 29 (street: Trakt Książęcy in Krosno Odrzańskie), running from the national border with Germany, in Słubice, to Połupin near Krosno Odrzańskie (to DK 32), is the river crossing on the Odra River. The bridge administrator is the General Directorate for National Roads and Motorways (GDDKiA), branch in Zielona Góra. The road bridge planned for reconstruction under the Contract is located on the Odra Waterway administered by the State Water Holding Polish Waters - Regional Water Management Authority in Wrocław. The bridge is located at km 514+100 of the Odra River. The road bridge on the Odra river at km 53+067 of the national road No. 29 in Krosno Odrzańskie (street: Trakt Książęcy in Krosno Odrzańskie, km 514+100 of Odra), pursuant to the entry No. L-600/A dated 13.08.2013, is covered by the monument conservator protection of Lubuski Province Monument Conservator seated in Zielona Góra (the implementation conditions determined in relevant administrative decisions).

The following scope of works and activities, along with obtaining the use permits, has been planned within the Contract:

- constructing a temporary bridge, along with access points and obtaining road traffic approvals for temporary traffic diversion for the purpose of reconstructing the bridge existing above the Odra River,
- lifting the supporting structure of the existing bridge structure,
- upward extension of the existing supports of the bridge structure,
- extension of the national road No. 29 along the section covered by the reconstruction,
- extension of the intersection of the national road No. 29 with Podgórna street and Nadodrzańska street,
- reconstruction of the intersection of the national road No. 29 with Murna street and Słoneczna street,
- providing the retaining walls at the access points to the bridge structure,
- sectional revetments for the Odra River slopes,
- construction/reconstruction of sidewalk and pedestrian walkways,
- reconstruction of individual exits,
- making the safety elements of road and pedestrian traffic,
- redevelopment of the existing LV power network,
- redevelopment of the existing MV power network,
- reconstruction of the existing road lighting,
- reconstruction of the existing telecommunication network,
- reconstruction of the existing water supply pipeline, including the trunk water main,

- adjustment of the road drainage, including reconstruction of the existing gravity pipeline,
- reconstruction of the sanitary pressure sewer system,
- reconstruction of the gas main,
- carrying out all the tests and acceptance procedures and obtaining the permits,

The detailed description of the requirements for works for the said procurement subject is provided in the Construction Designs and Specifications, plus in the Description of the requirements for works.
