

WR.RPC.5032.25.2023.

### **NOTICE TO SKIPPERS no. 25/2023**

#### **Concerning the restriction of the possibility of supplying the free-flowing Oder River with water discharges from barrages**

Pursuant to Art. 14 sec. 1(4) of the Act of July 20, 2017 – Water Law (Journal of Laws 2020, item 310, 284, 695, 782, 875) and Art. 43 sec. 6 of the Act of December 21, 2000 on inland navigation (Journal of Laws of 2019, item 1568, 1901, 2170, of 2020 item 284.),

State Water Holding Polish Waters Regional Water Management Board in Wrocław would like to inform that due to the current hydrological situation on the Oder River, the possibility of supplying the free-flowing Oder River with discharges from the Brzeg Dolny barrage is suspended until further notice.

Due to the above, the transit depths and associated navigability below the Malczyce barrage will only depend on the current values of the natural flows in the Oder River.

We ask all users of the Oder Waterway to take this situation into account in their shipping plans.

Current information on the hydrological and navigational situation on the Oder River (navigational information) is available on the SWH PW RWMB Wrocław website, in the tab [CUSTOMER'S ZONE – Hydrological and navigational situation](#). For further information, you can contact the Operations Centre of SWH PW RWMB in Wrocław on working days from 08:00 a.m. to 4:00 p.m. by phone: 71 32 80 587.
